

New York Newsletter

Friday 27th September 2019

Did you know?

September - The seventh month?

September comes from the Latin root Septem-, meaning "seven," because in the original Roman republican calendar September was the seventh month of the year rather than the ninth, until July and August were added...

Dear Parents and Carers,

Connecting Classrooms:

This week we have had a group of ten Lebanese teachers and headteachers visiting our cluster of schools across Lincolnshire... The main theme we have focused on is recycling and the worldwide problem we are having with plastic. What an amazing week it has been, exchanging ideas, culture, ethos, traditions, knowledge and most importantly... understanding! We have had Miss Suzan with us at Frithville and New York, teaching all four classes over both schools, the children loved it. Here are just a sample of the photos taken across the county this week...

We will be making the return trip to Lebanon next year during the February half term.

Exotic Animal Workshop:

Anything I write here will not do the learning experience the children had on Monday any justice... Please ask them!

E-safety:

BBC OwnIt - digital wellbeing app...

The BBC have launched a new app for children called Own It. The app monitors how young people interact with others online and uses artificial intelligence to evaluate the mood of the child so it can offer advice. For example if the child types 'you're really stupid' the app will alert the sender and ask if they really want to send. It does a lot more and is definitely worth a look. For more information see here:

<https://www.bbc.co.uk/news/technology-49726844>

Google Family Link - parental control software...

Another one for your newsletter. Family Link has been around for some time, but has recently had a much-needed update. You can now limit screen time per app (instead of the whole device) as well as track activity, set daily limits, view device location and more. See here for more information:
