Dear Parents and Carers,

One Year on!

It is hard to comprehend and understand what the world has been through this last year, no one could have predicted the experiences we've all been a part of. On Tuesday 23rd March we joined with Frithville Primary School Children, via ZOOM, for a minute's reflection. I rang the old school bell (cast in 1880) at Frithville at 12.00pm to begin a minute of quiet thought.

We thought about what our keyworkers, especially in the NHS, have done for us this year, the help they have given us, the sacrifices they have made. We thought about what good had come out of this year, what we have gained, what we have learnt... We thought about what we have lost this year, we thought about those we love.

I can only thank you all again: children, staff, parents, governors and Trustees for your support, resilience and understanding this last year. We can only hope that the roadmap outlined by the government remains on track and we have a summer to look forward to.

Many of your virtual meetings/telephone calls have already taken place this week, discussing in great depth the progress, attainment and wellbeing of each child. The calls have been extremely positive and well received, more are planned for next week and just after Easter... Thank you!

The little critters are back:

Only a few weeks back... I sincerely apologise to all parents who rigorously checked their children's hair for head lice during lockdown. Unfortunately it is a problem Nationwide, 39% of children aged between 4 and 12 have suffered from head lice in the past two years. Most parents spent the lockdown ensuring that their children's hair was clear of lice, however some didn't! This is why they spread and our children become re-infected again and again. It is a basic parental responsibility to take care of our children and this includes checking hair, not only for the sake of your own children, but for the whole school community.
